

Name	Role	Group/Department	Interests	Location of practice	Hospital Affiliations
Dr David Adam	Electrophysiologist	Cardiac Rhythm Management	Catheter ablation for arrhythmias including atrial fibrillation. Implantable devices- pacemakers and defibrillators.	Mulgrave, Brighton, Moorabbin, Warragul (pacing only)	Holmesglen Private Hospital, The Valley Private, MMC, Jessie McPherson Private Hospital
Dr Jeffrey Alison	Electrophysiologist	Cardiac Rhythm Management	Ambulatory and hospitalised patients with heart rhythm disorders, electrophysiology studies, catheter ablation, device therapy with pacemakers and implantable defibrillators and cardiac resynchronization therapy for heart failure ("biventricular pacing")	Brighton, Moorabbin, Berwick, Warragul (pacing only)	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Mohammad Alasti	Electrophysiologist	Cardiac Rhythm Management	Atrial fibrillation, SVT, all forms of catheter ablation for arrhythmia. Implantable cardiac devices including pacemakers, defibrillators and cardiac resynchronisation	Moorabbin, Warragul	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Logan Bittinger	Electrophysiologist	Cardiac Rhythm Management	Atrial fibrillation, SVT, all forms of catheter ablation for arrhythmia. Implantable cardiac devices including pacemakers, defibrillators and cardiac resynchronisation	Brighton, Moorabbin	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital, Peninsula Private Hospital
Dr Stewart Healy	Electrophysiologist	Cardiac Rhythm Management	Atrial fibrillation management and device therapy for arrhythmias and heart failure	Brighton, Mulgrave, Warragul	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Emily Kotschet	Electrophysiologist	Cardiac Rhythm Management	Atrial Fibrillation management, including catheter ablation, device implantation (pacemakers, defibrillators and cardiac resynchronisation devices), and inherited arrhythmias, such as Long QT syndrome, Brugada Syndrome and sudden cardiac death genetics. She is happy to consult families and children, regarding these conditions.	Brighton, Moorabbin, Alexandra, Rowville, Morwell, Berwick	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital, Cabrini Malvern

Dr Tim Barton	Electrophysiologist	Cardiac Rhythm Management	Echocardiography techniques, stress echocardiography, transoesophageal echocardiography and advanced cardiac CT interpretation. General clinical cardiology, structural and valvular heart disease and heart failure.	Brighton, Moorabbin, Warragul	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Ben Dundon	General Cardiologist	General Clinical Cardiology	Invasive and non-invasive evaluation and management of coronary artery disease and hypertension, as well as the management of general cardiology conditions including valvular heart disease and cardiomyopathy	Brighton, Moorabbin, Mulgrave, Warragul	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Bon Chou	General Cardiologist	General Clinical Cardiology	Performs Stress echocardiography at Melbourne Heart Care	Brighton	Holmesglen Private Hospital
Dr Clive Jankelowitz	General Cardiologist	General Clinical Cardiology	Adult cardiac care.	Brighton, Moorabbin	Holmesglen Private Hospital
Dr Jonathan Lipshutz	General Cardiologist	General Clinical Cardiology	General clinical cardiology, structural and valvular heart disease and heart failure. All forms of echocardiography (transthoracic, stress and trans oesophageal) and cardiac CT interpretation.	Brighton, Moorabbin, Warragul	Holmesglen Private Hospital
Dr Colin Machado	General Cardiologist	General Clinical Cardiology	Implantable cardiac devices including pacemakers, defibrillators and cardiac resynchronisation	Brighton, Moorabbin	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Liam McCormick	General Cardiologist	General Clinical Cardiology	Management of all general cardiac conditions including valvular heart disease, arrhythmias and cardiomyopathies. Particular interest in all aspects of coronary intervention and the percutaneous management of structural heart disease.	Brighton, Moorabbin	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Sophie Gettens	General Cardiologist	General Clinical Cardiology	General clinical cardiology, structural and valvular heart disease and heart failure. All forms of echocardiography (transthoracic, stress and trans oesophageal) and cardiac CT interpretation.	Moorabbin, Warragul	Holmesglen Private Hospital

Dr Kuhendra Balakrishnan	General Cardiologist	General Clinical Cardiology	General clinical cardiology, structural and valvular heart disease and heart failure. All forms of echocardiography (transthoracic, stress and trans oesophageal) and cardiac CT interpretation.	Moorabbin, Warragul	Holmesglen Private Hospital
Dr Ari Horton	Interventional Cardiologist	Interventional Cardiology	Clinical expertise in holistic healthcare for children and adolescents with cardiac issues	Moorabbin	MMC
A/Prof Philip Mottram	Interventional Cardiologist	Interventional Cardiology	Stress echocardiography for the assessment of patients at increased cardiovascular risk, and patients with chest pain syndromes or exertional dyspnoea where a cardiac cause may be suspected. His other clinical interests include general clinical cardiology, heart failure and the assessment of valvular heart disease with transoesophageal echocardiography as well as assessment of coronary artery disease and cardiac abnormalities with cardiac CT.	Brighton, Moorabbin	Holmesglen Private Hospital
Dr Michael Leung	Interventional Cardiologist	Interventional Cardiology and Cardiac CT	Ischaemic heart disease, coronary intervention (radial access), non-invasive cardiac imaging including cardiac CT (coronary assessment) and cardiac MRI (cardiomyopathy, cardiac mass, pericardial disease, valvular heart disease). Preventative cardiology and cardiovascular risk factor management.	Brighton, Moorabbin, Berwick	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
A/Prof Sujith Seneviratne (Sene)	Interventional Cardiologist	Interventional Cardiology	Investigating and managing chest pain and exertional dyspnoea using non-invasive (Cardiac CT) and invasive strategies. Coronary Angioplasty including chronic total occlusions and FFR guided interventions. Preventative Cardiology and risk assessment using Cardiac CT and Calcium score.	Brighton, Moorabbin	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital

Dr Tony White	Non-invasive Imaging Specialist	Imaging	Assessment and management of myocardial infarction, angina and coronary artery disease, but has expertise in a variety of general cardiac disorders including cardiac failure, hypertensive heart disease, hypercholesterolaemia, atrial fibrillation and valvular heart disease.	Brighton	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
Dr Stuart Moir	Paediatric Cardiologist	Paediatric Cardiology	All forms of echocardiography (TTE, stress, TOE, contrast echocardiography) as well as cardiac CT	Brighton, Moorabbin, Warragul	Holmesglen Private Hospital, MMC, Jessie McPherson Private Hospital
A/Prof Sarah Hope	Paediatric Cardiologist	Paediatric Cardiology	Non-invasive imaging for the diagnosis and follow-up of congenital heart disease and in the management of both children and adults with congenital heart disease. Assessment of vascular mechanical properties and potential associations with long term cardiovascular risk	Brighton	MMC
